

Morgan Stanley

What Will You Create?

We are looking for a
Process and Data Validation Intern
in our **Risk Management Department**

Given the continued spread of COVID-19 (coronavirus), all interviews will be conducted by phone or virtual connection to protect our candidates and employees.

Location: Budapest office

Start date: December 2020/January 2021

Contract: 20/30/40 hours (flexible)

We offer:

- A supportive and vibrant **multinational environment** in an inspiring international team
- **Continuous development** opportunities
- Opportunity to participate in the firm's **networking events**
- Opportunity to **receive an offer** for internship extension/full-time role upon graduation
- Opportunity to complete the internship **remotely**

You will:

- **Independently review and validate** (similarly to Internal Audit's methods), the design and operating effectiveness of select processes and controls executed by the Risk Department
- Support risk assessment, governance review and validation, monitoring and reporting
- Assess ongoing compliance with internal policies and regulatory requirements
- Design and execute **core data and data quality testing**; reviewing and challenging automated controls and reporting logic

You have:

- **Ongoing BSC (or above)** studies in related discipline e.g. Economics, Finance, Business Informatics, Mathematics, or Business, etc.
- **Advanced Excel**, experience with writing or editing **SQL, VBA** and/or other data analytics and data visualization tools, **experience with large data sets**
- Good knowledge of core banking, investment and trading products
- Interest in risk management processes and their assessment
- Good problem-solving, communication, teamwork and analytical skills, as well as a good command of the English language

About us: Morgan Stanley is a global financial services firm and a market leader in investment banking, securities, investment management and wealth management services.

At Morgan Stanley Budapest, we are shaping the future of our global business and contributing to our local community. Our team works across numerous areas, including Technology, Mathematical Modeling, Finance, Risk Management, Operations and Data & Analytics from our new state-of-the-art offices near the Danube and our City Gate office in the heart of the city center.

Application

If you are interested in the above opportunity, please apply [here](#) by submitting your English CV.
